---

An act to ~~amend Section 653v of, and to add Section 653aa to~~ *add and repeal Section 653aa of the Penal Code, relating to Internet piracy.*

LEGISLATIVE COUNSEL'S DIGEST

SB 1506, as amended, Murray. Internet piracy.

Existing federal law, through copyright, provides authors of original works of authorship, as defined, with certain rights and protections. Existing federal law generally gives the owner of the copyright the right to reproduce the work in copies or phonorecords and the right to distribute copies or phonorecords of the work to the public. Existing federal law limits the liability of an Internet service provider for copyright infringement for transmitting material under specified conditions. Existing law also provides for the forfeiture and destruction of articles upon which sounds or images can be stored, and electronic and other devices used in reproducing those articles, in connection with a violation of provisions prohibiting misappropriation of recorded music, sounds of a live performance, or an audiovisual works, as specified.

This bill would provide that it is a crime, punishable by a fine not exceeding \$2,500, imprisonment in a county jail for a period not exceeding one year, or by both that fine and imprisonment for a person

who is located in California, who knows that a particular recording or audiovisual work is commercial, to knowingly electronically disseminate all or substantially all of that commercial recording or audiovisual work to more than 10 other people without disclosing his or her ~~true name and e-mail~~ address, and the title of the recording or audiovisual work. *This bill would provide that a minor who violates these provisions is punishable by a fine not exceeding \$250 for a first or 2nd offense and by a fine not exceeding \$1,000, imprisonment in a county jail, or by both that fine and imprisonment for a 3rd or subsequent violation.* This bill would define electronic dissemination as initiating a transmission of, making available, or otherwise offering a commercial recording or audiovisual work for distribution on the Internet or other digital network, as specified. This bill would provide that ~~this provision~~ *these provisions* would not apply to a person who electronically disseminates a commercial recording to his or her immediate family or within his or her personal network, as defined, or to a situation in which the copyright owner has explicitly given permission for all or substantially all of that recording or audiovisual work to be freely disseminated. This bill would also provide that a court ~~may~~ *shall* order the ~~forfeiture and deletion or destruction of articles upon which sounds or images can be stored, electronic files, and electronic and other devices in connection with a violation of these provisions~~ *any electronic file containing a commercial recording or audiovisual work, the dissemination of which was the basis of the violation.*

Because this bill would create a new crime, it would impose a state-mandated local program.

*This bill would provide that its provisions would become inoperative on January 1, 2010, unless a later enacted statute deletes or extends that date.*

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: yes.

*The people of the State of California do enact as follows:*

35    recording or audiovisual work to his or her immediate family, or  
36    within his or her personal network, defined as a restricted access  
37    network controlled by and accessible to only that person or people  
38    in his or her immediate household.

This subdivision shall not apply to the copyright owner or to a person acting under the authority of the copyright owner.*

*(e) For purposes of this section:*

(1) “Recording” means the electronic or physical embodiment of any recorded images, sounds, or images and sounds, but does not include audiovisual works or sounds accompanying audiovisual works.

(2) “Audiovisual work” means the electronic or physical embodiment of motion pictures, television programs, video or computer games, or other audiovisual presentations that consist of related images that are intrinsically intended to be shown by the use of machines or devices such as projectors, viewers, or electronic equipment, or a computer program, software, or system, as defined in Section 502, together with accompanying sounds, if any.
